Clarification of Scope

Fundraising Governance Assurance™ (FGA™) is a governance discipline.
A governance discipline defines a fiduciary responsibility at board level.
It does *not* describe frameworks, methods, systems, processes, or implementation models.

FGA™ defines the responsibility for governing revenue continuity during fundraising leadership transitions.
It addresses the minimum £150,000 Baseline Fiduciary Exposure™ associated with those transitions.

This addendum clarifies that references to “frameworks” in external summaries do not describe the discipline itself.
